Dear Governor Schwarzenegger,

We would greatly appreciate your support of Assembly Bill 548 (Levine), which requires owners of multi-family dwellings to arrange for recycling services for their buildings.

While California overall is diverting more than 50 percent of generated waste, it's estimated that just 15% of waste generated at multi-family dwellings is currently diverted. These housing units account for 26% of the residential waste stream. AB 548 is aimed at increasing recycling in California by closing the curbside recycling gap for multi-family dwellings.

The Watergate condominium complex of 1249 units does have a recycling program, which we have been working hard to improve over the past year. We are proud of our success and feel everyone living in a multi-family complex in the state should have the same opportunity. We urge your signature of this measure into law.

Sincerely,

Tim Sutherland, General Manager
